A. S. WATSON & Co., LIMITED.

ESTABLISHED A.D. 1841.

Wines and Spirits.

ALL these are selected by our London House, bought direct at first hand, imported in wood and bottled by ourselves thus saving all intermediate profits, and enabling us to supply the best growths at MODERATE PRICES.

PRICE LISTS, with Full Details, to be had on Application.

PORT after removal should be rested a month before use. When required for drinking at once it should be ordered to be decanted at the Dispensary before being sent out.

SHERRY.—Excellent Dinner and After Dinner Wines of very superior Vintages. All are true Xeres Wines.

CLARET.—Our Clarets, including the lowest priced, are guaranteed to be the genuine product of the juice of the grape and are not artificially made from raisins and currants, as is generally the case with Cheap Wines.

BRANDY.—All our Brandy is guaranteed to be pure Cognac, the difference in price being merely a question of age and vintage.

WHISKY.—All our Whisky is of excellent quality and of greater age than most brands in the market. The SCOTCH WHISKY marked 'E' is universally popular, and is pronounced by the best local connoisseurs to be superior to any other brand in the Hongkong market.

We only guarantee our Wines and Spirits to be genuine when bought direct from us in the Colony or from our authorised Agents at the Coast Ports.

The N. L. s. s. *Preussen,* with the GERMAN MAIL to the 1st June, left Singapore on Thursday, June 25, at midnight, and may be expected here on or about Tuesday, June 30.

The N. P. s.s. *Victoria* arrived at Yokohama on the 19th June, and sailed for this port, via usual Japan ports of call, on the 20th June.

The N. P. s.s. *Olympia* left Victoria for this port on June 22, via usual ports of call.

The *Empress of Japan* left Vancouver for Hongkong on Monday afternoon last, the 22nd June.

Steamers Expected.

The China Mutual Co.'s s. s. *Kaisow,* from Glasgow and Liverpool, was to leave Singapore for this port on Monday, the 22nd June (having been quarantined), and may be expected here on or about June 28.

The s. s. *Catherine Apcar,* from Calcutta, left Singapore for this port on the afternoon of June 23.

THE delivery of the English Mail was begun at 8.35 this morning.

LIEUT. C. J. T. Dormer has been appointed to the command of H.M.S. *Pigmy.*

THE Straits Government has sanctioned the appointment of a Chinese female inspector to assist the Deputy Health Officer in the inspection of Chinese female immigrants and emigrants arriving from infected ports. This step has been taken out of consideration for the Chinese, and the salary of the inspector will be paid by the Chinese Advisory Board. Lim Seng Kai has been appointed.

UP to the 8th June the Australian XI. had played eight matches, winning 6 and drawing 2 (South of England and Lord Sheffield's XI.). As will be seen by Reuter's telegram, their defeat by a Midlands XI. has [illegible] All England in the first of the three test [illegible] team had already beaten the Cornstalks by an innings and some odd runs.

THREE pretty maids and one 'gentleman of Japan' were charged by Captain T. Golding, of the British steamer *Afridi,* at the Magistracy to-day, with taking surreptitious passage on board the *Afridi* from Moji. The defendants offered to pay their passage moneys, but the Captain refused to accept the money. He said he must clear himself with the Japanese Authorities, and asked Commander Hastings to sign his log book. Commander Hastings fined each of the defendants $25.

IF Messieurs the Postmasters at Shanghai have no objection we prefer to have our Shanghai exchanges delivered to us direct and not by way of London. The batch of northern newspapers brought out to us by the English mail may be interesting as ancient history—they are dated the middle of April ; they may be even interesting as showing what it is possible for the Postal officials at Shanghai to accomplish if they only apply themselves to their work. The round trip has been accomplished in fairly good time, but not sufficiently quick for the requirements of the *China Mail,* which is nothing if not up to date. This paragraph is meant for the eye of the French Postmaster at Shanghai—and when found we advise him, like Capt. Cuttle, to make a note of it.

THE following details reach us *via* Ceylon regarding a party of exploration across the Pamirs :—It is reported from Leh that the exploring expedition under Captain Welby, 18th Hussars, which is going to Pekin, has arrived safely in Niagzu, on the southern border of Chang Chem Mo. Besides Captain Welby, the expedition consists of Lieutenant Malcolm, 93rd Highlanders, Mr Norman, 11th Bengal Lancers, who was recently on duty with the Pamir Boundary Commission, Sub-Surveyor Daffadar Shahzad, a cook, a Ladakh servant and 8 drivers. Lieutenant Malcolm left Srinagar with the heavy baggage on the 5th April. Owing to the difficulties of crossing the Zoji La and the delay of two days at Dras, through severe weather, he did not arrive at Leh till the 21st April. There he was joined by Captain Welby on the following day, and the work of collecting caravan was at once proceeded with.

HERR von Heyking, the new German Minister to Peking, was to have sailed from Vancouver by the *Empress* steamer on June 22.

ON Sunday morning, between 9 and 10.30 o'clock, the steam-launch *Dayspring,* carrying the Bethel flag, will call alongside any vessel hoisting the answering pennant, to convey men ashore to 11 a.m. service at St. Peter's (Seamen's) Church, returning about 12.30.

A WIRE from Seal Rocks states that the salvage steamer *Sophia Ann* signalled yesterday morning that the buoys had gone adrift from the wreck of the *Catterthun.* The *Sophia Ann* and the *Mermaid* then commenced dragging, and at 1 o'clock again caught hold of the wreck. One of the divers went down to the wreck during the afternoon, and the *Sophia Ann* has moored over the spot where the *Catterthun* lies. The *Mermaid* returned to Seal Rocks Bay at sundown. So reports the *Sydney Morning Herald* of the 5th June. Efforts are still being made to recover the gold from the wreck of the *Catterthun.*

WE have received from Messrs W. E. Peck and Co., of 62 and 64 William Street, New York, No. 17 of Peck's Export Purchase Index. The Index is designed to bring before the purchasers of American manufactures a reliable list of the principal manufactures of the United States. A long list of manufacturers, together with their manufactures, and comprising over 2,000 firms, has been carefully arranged in alphabetical order. The purchaser has simply to look up the article required in the 'Article Index,' and then look up the opposite numbers in another index where the manufacturers' names and addresses are to be found. A portion of the book is devoted to illustrations and descriptions of the manufactures. There are a number of useful and interesting papers on trade subjects.

THE British steamer *Strathallan* arrived to day from Hongay, having grounded on a sandbank on her voyage through the Hainan Channel. The bank is unmarked on the chart and ten fathoms is shown as the depth of the water. After a delay of about two hours, the vessel came off herself and was able to proceed on her voyage. It was, however, discovered that the injection pipes and circulating pumps were all clogged with sand, but although thus heavily handicapped, the vessel reached Hongkong without any further accident. The *Strathallan* has been put in the hands of the Dock Company to have the pipes cleared. It is believed that she is not otherwise damaged. She will be delayed a [illegible] of the Dock Company. The *Strathallan* was chartered by Messrs [illegible] and was carrying a cargo of coal. Messrs Dodwell, Carlill and Co. are the agents.

THE German quinine manufacturers intend to establish a quinine manufactory in Java.

CLAUS Spreckels, the American Sugar King, is staying at Magdeburg to study the methods of German sugar cultivation for the purpose of trying to introduce the sugar beet in California.

THE defaulting cashier of the Netherlands Trading Society at Penang has been found guilty on four counts, but sentence has been deferred. Notice of appeal has been given. It is said that the fees of counsel in this case were $1,000 to Mr Adams, and $500 to each of the other two counsel.—*Singapore Free Press.*

THE new Italian naval programme is very modest, and, so far as new constructions are concerned, embraces but two items. One is a small torpedo cruiser 1.100 tons, 7,000 horse power, and a speed of twenty-two knots. The other is an armoured cruiser of 10,500 tons, 18,000 horse-power, and a speed of twenty-three knots.

THE German Government is sending three experts to India to study and report upon the position of the cotton industry, and the effect of the revised duties more particularly. The appointed persons have no official status, it being the purpose of the authorities to conduct what will, in effect, be a private inquiry. These gentlemen will probably be out and round India before the Lancashire commercial mission to China, so long projected and so leisurely carried out, have packed their portmanteaus for the Far East.

THE *Press Association* learns that it has been intimated to the officials who will be the most intimately concerned that, if the Queen be spared to complete the sixtieth year of her reign, it is intended to mark the occasion by celebrations in the nature of those in the Jubilee year. Her Majesty enters next month on her sixtieth year of sovereignty. She is in excellent health, and, in the opinion of those best able to judge, returned from her last sojourn abroad stronger and better than she has appeared to be during the past three or four years.

ACCORDING to the *Locomotief,* a Samarang newspaper, the King of Siam is being 'bled' for all he is worth by the Dutch colonists. His Majesty has to pay two hundred guilders a day for his apartments in the hotel at Garut, and outlay for his following of one hundred and sixty-seven persons proved so heavy that many of them have been sent back to Batavia to live on shipboard. The King's lodging expenses, and the lodging expenses of his forty relatives and attendants, amount to a separate sum of two hundred guilders a day. That is one of the advantages of being blest with relations. All the traders and storekeepers, too, are alleged to have advanced their prices from fifty to a hundred per cent., and making a splendid thing of the King's visit. His Majesty has no doubt vastly strengthened the monarchical leanings of his hosts. But the King does not often give himself a holiday, and so, like the free and easy cockney on a trip to Ramsgate, he need not care what he spends. Still, one cannot help sympathising even with a King when holiday expenses are heavy.—*Straits Times.*

W. ROBINSON & Co. have 150 Pianos for Hire on Monthly Payments, also Pianos returned from Hire cheap.

MR Registrar Fox, of the Croydon County Court, has peculiar ideas of music. During the hearing of a case respecting the price of a fiddle and certain lessons thereon he delivered the following brief soliloquy :—'Some people thing a great deal of the charms of the violin. I am not one of them. I would sooner prefer a cat concert on the tiles any night.' Mr Fox is a man to be watched. With no music in his soul he is but 'fit for stratagems and spoils,' and kindred naughtinesses.

HONGKONG, we observe with pleasure, is agitating for municipal government. During the earlier stages of its existence as a British colony the policy of lumping all receipts together, whether collected for municipal or Imperial purposes, was probably the best, as certainly it was most convenient. It has outgrown this swaddling-clothes period, however, and is entitled to take on the duties and obligations of a more mature period of existence.—*L. and C. Express.*

SIR Claude MacDonald, K.C.M.G., the new British Minister to China, seems to have created as good an impression amongst his nationals in China as he did on the China community in London previous to his departure. Judging by his remarks at both Hongkong and Shanghai, he does not intend the grass to grow under his feet, whilst he recognises that if Great Britain and British merchants are to continue to hold the place they have hither to occupied both politically and commercially in China, that all—diplomatists, consuls and merchants—will have to put their shoulders to the wheel and manfully work all together. His words were inspiriting to his countrymen, and left the impression that their representations would not be merely received at Peking, but would be attended to as far as possible.—*L. and C. Express.*

LADY O'Conor, our Ambassadress in St. Petersburg, is a daughter of Mr Gladstone's old friend, Mr Hope-Scott, Q.C. With his first wife, Lockhart's daughter, he acquired the name of Scott as life-tenant of Abbotsford. His second wife—Lady Victoria Howard, sister of the present Duke of Norfolk—was but half his own age, and by her he had several children, who bore the name of Hope without Scott, and of whom Lady O'Conor is one. In politics Lady O'Conor follows her uncle the Tory Postmaster-General, and not her father in his old Gladstonian attachment; and her brother, Mr James Hope, stood unsuccessfully at Pontefract in the Conservative interest at the last election. Mr Gladstone, however, has lost none of his interest in the brilliant career of his old friend's daughter, whose favourite game in the nursery was 'playing at queens'—an ambition she has now come near to realising as Her Majesty's proxy in St. Petersburg.—*Home Paper.*

ALLISON Pianos, Art Models, very fine, $400/450; Cabin Pianos, small but excellent, $175/220.—W. Robinson & Co.

'FRAGRANT WATERS' MURMUR

That the D. P. W. (Dictator of Public Waterworks), having got tired of bucking up against Stonewall Danby, has begun a crusade against the churches, chapels, schools and theatres of this highly-educated and over-governed Colony.

That hitherto these institutions have been exempt from rates, but now the Dictator has decreed that they shall pay for their water by meter.

That there may be some appropriateness in affixing a meter to a Meeting House, but if cleanliness is next to godliness, it may be asked why the one should be taxed and the other go free.

That I wonder whether our local C. M. G.'s (Charitable Members of Government) understood or realised that this would be the effect of the apparently innocent little Waterworks Amendment Ordinance of 1895.

That I do not quite see why the Government should make grants to these (more or less) charitable institutions with the one hand, while with the other they collect a water rate.

That it is to be hoped the leading officials and unofficials who have brought about this novel application of the Irishman's dodge—of lengthening his blanket, by tearing off a piece at one end and sewing it on to the other—will increase their subscriptions so as to make up for the new impost.

That I am now in daily fear lest the D. P. W. man—he is known now, I understand, as the Dauntless Perpetual Worry—should insist upon measuring these 'Murmurings of Fragrant Waters' by meter.

That some cruel people possessed of no sense of humour might rejoice thereat.

That the community is looking forward to the refreshing sight in the Supreme Court, when the Sanitary Board (officers and members) are to appear *en bloc* to go through a terrible ordeal.

That the terrible ordeal is stated to be—to define the difference between a mezzanine floor, a cockloft, and a cubicle; and to demonstrate when these constructions are legal and when illegal.

That the community are looking forward to several all-night sittings, judging from past experience.

That the only consolation which the official element can lay to its soul (if officials are not like corporations) is that the straight-going champion of the community (Mr N. J. Ede) is bracketed with the official muddle-manufacturers, and may have to share in all the bother.

That I notice you have already dealt with the characteristic criticism made by your morning contemporary upon one of the opening clauses of last week's chit-chat.

That perhaps you made more of it than was necessary, because, so far as I can learn, no one else read the remarks other than fairly, or interpreted them in any other way than they were intended to be read.

That this is a mere nothing.

That your statement about the dumping of sewage in front of European offices and residences, at a time when the condition of the foreshore was quite bad enough, is a matter to demand not only investigation, but something more.

That I have heard and read of curious things being done at, say Bangkok, Constantinople, Melbourne, or Cologne, but for out-and-out abandonment of all the rules of public health commend us to the practice of dredging filth and stinks from one frontage and dumping them down upon the other frontage of a busy city.

That it has been suggested this remarkable system of reclaiming is defended on the score of economy, and whoever may be held responsible for such dumping is welcome to this excuse.

That of course such an enormity cannot be permitted to go on, and the astounding part of the business is that it has been allowed to go on so long.

That in the investigation which must now be made it would, perhaps, be well to consider how far such a mad practice helped to feed and keep alive the terrible Bubonic fever which for two or three years past has imperilled the commercial life of the Colony.

That I hear there is every probability our local A. D. C. will perform 'Dorothy' during the incoming season.

THE COAL MINES AT TONGSHAN.

(*From a Correspondent.*)

Tientsin, June 8.

The Italian Minister, accompanied by his Secretary, the French Consul at Tientsin, the Military Attaché of the French Legation at Peking and the Belgian Consul, went up to Tongshan by the afternoon train on the 6th inst. in the Viceroy's special saloon car, which was lent to them for the occasion. On arrival at Tongshan they were met by Mr Chun Oi-ting and Tong Ka Sun. The party then divided themselves into two sections. The Italian Minister and his Secretary, under the escort of Mr Chun, went to inspect all the different works of the Colliery. The magnitude of the works elicited the surprise and admiration of the Minister who expressed himself as deeply interested in the history of the Company. The time was too limited to admit of an inspection of the underground workings, so he contented himself with an inspection of the surface works. He expressed the wish to see more industrial enterprise in China, and spoke highly of the work already accomplished by the Company.

The French Consul and the remainder of the party, escorted by Tong Kai Sun, went to see the Company's waterworks. The water is obtained from two bore wells. The party was intensely interested in the matter of artesian wells, and spent several hours in gathering information on the subject of boring for water. Mr Short, the mechanic, was present, and described in minute detail the work of sinking the wells, the structure of the wells, the geological strata of the ground, and other cognate matters. I may say in this connection that the French Municipality at Tientsin is expending a good deal of money in boring operations to obtain fresh water in the French Settlement. The operations are being carried out under the superintendence of the American engineer, Mr Jameson. So far they have reached a depth of 205 feet, but have met with only brackish water. It is proposed to go down 600 feet before giving up the attempt and seeking elsewhere for fresh water. The next morning the Italian Minister and his party went to Shanghai by first train.

On the 21st inst., the preliminary work for the sinking of a new shaft was commenced. It is a heavy undertaking and it is estimated that two years will be the time required for accomplishing the work. The new shaft is to reach a depth of 1200 feet and is to have a 20-foot drain built with fire-bricks of the Company's own manufacture. When this shaft is completed it is estimated that the daily output of coal will reach 3000 tons.

A MAGNIFICENT wreath has been frozen by the Metropolitan Ice and Cold Storage Company for despatch to Dumfries, in Scotland, where it is to be placed upon the tomb of Robert Burns as a tribute of respect to his memory on behalf of the Scottish societies of Australia. The wreath, which is the work of Miss Goodenough, of King-street, is of oval form, and consists of flowers chosen from the different parts of Australia. It measures 4ft. 10in. at its extreme diameter, and is 4ft. wide and 2ft. thick. The frozen block weighs 25cwt. The arrangement of the flowers is very artistic. The word 'Australia' is skilfully worked in floral characters and extends across the centre conspicuously. The tribute will reach its destination in time to be placed upon the poet's tomb on the centennial anniversary next month.—*Sydney Morning Herald.*

IMPURITIES IN THE BLOOD.—'We have seen hosts of letters from people who have received great benefit from the use of Clarke's Blood Mixture. It cannot be too highly estimated, for it cleanses and clears the blood from all impurities.' This is a good testimonial from the *Family Doctor*, which goes on further to say: 'It is the finest Blood Purifier that science and skill have brought to light, and we can with the utmost confidence recommend it to our subscribers and the public generally.' For Scrofula, Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples and Sores of all kinds, its effects are marvellous. Thousands of wonderful cures have been effected by it. Clarke's Blood Mixture is sold everywhere, at 2s. 9d. per bottle. Beware of worthless imitations and substitutes.

A SERIOUS RIOT IN COLOMBO.

THE MILITARY CALLED OUT.

An almost unprecedented scene of riot took place on the 7th June within a hundred yards of the Fort itself, namely, on the road known as Front Street, which is at the very commencement of the Pettah, in front of the Racquet Court. The row originated through some blue-jackets from the *Redbreast*, a party of four, who visited a house in the Pettah, and there one of them was robbed of some money. He became enraged and assaulted a woman—it is said he assaulted her with a knife—and she called up some native bullies and rowdies, and they set to work stoning the sailors and assaulting them in other ways to such an extent that they were forced to retreat. By this time their native assailants far outnumbered them, and the scene was one of great turmoil and excitement. Bricks and other missiles flew around in all directions, while the natives armed themselves also with sticks and other implements. When the sailors at last took to their heels, they made for Front Street in the direction of the Hotel de l'Europe, pursued by an excited mob. The manageress of the Hotel de l'Europe was the only one in charge, and, hearing the shouts and cries of the fugitives and those following them, she essayed to shut up the doors of her place, fearing an inrush, but she was not successful in this. One door had not been closed when the sailors came round, and they rushed in through it. The natives followed pell mell, and in a minute they were

WRECKING THE BAR.

They got hold of the sailors, and knocked them about severely. Some Lancashire soldiers, who called in casually, tried to render the 'Jacks' some help, and they, too, became involved in the affair, and one or two of them got badly hurt also. One of their number was flung on the ground, and unmercifully assaulted; sustaining a bad sprain of the ankle, in addition to other injuries. The mob, seeing that they had immensely the best of things in point of numbers, made the most of the opportunity. They smashed down the closed doors of the Hotel, wrenching the doors off from their hinges. They broke open the bar almirahs, removed a quantity of liquor, smashed a lot more bottles of spirits and wines and, bursting open the till, cleared it of over R40. They also pelted the upper part of the house with stones and bricks, smashing most of the windows, and a brick that went through one bedroom window badly injured the hand of Miss Glassner, who is staying at the house with her father. The Lancashire Regiment's picket of six men and a Corporal came down, and they tried to get the blue-jackets and their comrades out of the house in safety by charging the crowd first in one direction and then in another, but all the time the native gathering increased, and increasing numbers gave them still more confidence, the end of it being that they even attacked the picket itself, and at last had the picket flying up the road and drove them into Barracks. When this happened the military commanding officer took steps. The trumpet on the Barrack Square sounded the fall-in, and in a minute or two the detachment, of the Royal Artillery, under Lieut. Swettenham were standing out on the square, and on the other side of the square were four Companies of the Lancashire Regiment—namely 'A,' 'C,' 'E,' and 'H' Companies. All the men were armed with rifles (or carbines) and bayonets, but they had no ammunition.

ARRIVAL OF THE MILITARY.

What they had been called out for was soon known to the men on the parade ground. It was thought that it was advisable to send out only two Companies, namely, 'A,' and 'C,' of the Lancastrians. Captain Jourdain was in command and the officers with him were Mr Wylde Browne and Mr Green. One Company went down on the Norris-road side, and the other on the Bankshall side. With the latter went Col. Tidy and Captain Knight, the Adjutant, the latter being mounted. When they reached the Hotel de l'Europe they awed the crowd not a little and made them draw back. Passing up Front Street, too, they had a slight encounter with some of the mob, and the result of that was that the natives got to be more respectful. Then Captain Knight put his horse in amongst the crowd and cleared them back, and at last the sailors and others in the hotel were got out safely and sent on home. The Police helped in this, officered by Chief Inspector Trevena and Inspector Jansz, but they were late in reaching the scene, and if it had not been for the prompt outturn of the military the riot would not have subsided so quickly as it did. As it was about 11 p.m. before all the trouble was over, and the crowd had been all dispersed without hardly a man of the Lancashires getting out of line, and the two Companies called out were marched back to Barracks. We should hope that after this outbreak the Police will take steps to prevent its recurrence. The manageress of the Hotel de l'Europe is a considerable sufferer, as damage was done to her place to the money value of R300. No arrests of native were made by the Police.—*Times of Ceylon.*

W. ROBINSON & Co.'s Pianos are guaranteed for the climate. Pianos Repaired equal to new.

THE administrators of the Russian Patriotic Fleet, according to the *Novoe Vremya*, are about to order five new ocean steamers similar to the three added to their navy during last winter, and now on their first journey to Wladivostock.

THOSE who remember our old friends of the A. & S. Highlanders when stationed here—and who does not recall their stay here with pleasure?—will be glad to know that Captain S. L. Robinson is now passing through Colombo after a shikar trip to Burmah, returning to his regiment at Nowshera. He is now transferred to the 2nd Batt. the 93rd Highlanders, and has good news of all old friends in the regiment, and though it is many years since the 91st left us for Hongkong, Captain Robinson finds many friends still left to offer him a welcome.—*Times of Ceylon.*

MESSRS R. Craggs and Sons, Middlesbrough, made the first launch from their yard on 12th inst. It was a steamer, specially designed for trading in Chinese waters, and built to the order of Messrs Wiel and Amundsen, Fredrickshald. Her dimensions are 255 ft. by 36 ft. 9 in. by 20 ft. 4 in. Messrs Westgarth, English and Co. supply triple-expansion engines having cylinders 19 in., 31 in., and 52 in. in diameter by 36 in. stroke, provided with two specially large boilers working at 160 lbs. pressure.—*L. and C. Express.*

A NEW addition to the 'Shire' Line was recently made by the launch from the yard of the Sunderland Shipbuilding Company (Limited) of the steel screw steamer *Flintshire*, built to the order of Messrs Jenkins and Co. The length of the vessel is 364 feet, breadth 45 feet 3 inches, and depth moulded 30 feet 6 inches, and the carrying capacity 5,700 tons. The main engines have been constructed on the tri-compound principle, by the North-Eastern Marine Engineering Company (Limited), Sunderland, and have cylinders 25 inches, 41½ inches, and 69 inches in diameter, by 45 inches stroke, steam being supplied by two steel boilers working at a pressure of 160 lb. per square inch.—*L. and C. A STARTLING RUMOUR.—70 DEATHS ON BOARD H.M.S. 'BONAVENTURE.'

Calcutta, June 9.—The *Englishman* publishes a rumour from Pondichery that seventy deaths from sunstroke occurred aboard the flagship *Bonaventure* between Colombo and Pondichery. The *Bonaventure* probably arrives at Madras to-day, when the report will be verified. We wired to Madras in order to obtain confirmation of the rumour, and as we go to press the following telegram reaches us from there :—'The *Bonaventure* has not arrived at Madras. A Pondicherry report states that there are twenty deaths; but the Presidency Port Officer at Madras has received no information.'

June 11.—The *Bonaventure* rumour is incorrect. No deaths occurred.

DEATH OF SIR JAMES BROWNE.

Calcutta, June, 15.—Sir James Browne died at Quetta on Saturday. The funeral was attended by all the regiments and officers of the Garrison. Sir James is the third Beloochistan Agent who has died in harness. Mr J. A. Crawford acts as Agent temporarily.

[Sir Jas. Browne, K. C. S. I., will be badly missed in Beluchistan, where he held the post of Agent to the Governor-General. He was a Lieut.-Colonel in the Engineers, with the rank of Major-General in the Army, and had a long career of distinguished service—a worthy successor of Sir Robert Sandeman, who did so much to bring Beluchistan within the British sphere of influence.—ED., *T. of C.*]

RESULT OF THE GRAND PRIX.

Paris, June 14.—The race for the Grand Prix resulted as follows :—

Arreau	1
Champaubert	2
Montreuil	3

[The race for the Grand Prize of Paris is one of a mile and 7 furlongs; the stakes being 200,000 frs. (8,000 sovs.) 150,000 frs. being given by the City of Paris, and 50,000 frs. by the five great Railway Companies—for entire colts and fillies foaled in 1893 of every description and country, added to a sweepstakes of 1,000 frs. each. The second horse receives 800 sovs. and the third 400 sovs. There were 449 subs. The English nominations included Mr H. T. Barclay's *Dunrobin*; Mr H. E. THE TRANSVAAL.

London, May 27.—President Kruger, fearing that plots will be arranged for taking his life, has increased the guard at his house. The diary of Colonel White, one of Jameson's officers, has been found at Durnkop. In it he states that Mr Rhodes hoped to win the Transvaal back for England by force or reason, or the weight of population. He admits, in the course of his notes, that he had spied upon the artillery at Pretoria, and had discovered that it was useless. Mr Barnato says that as he believes that it is the intention of the Boers to release the Reformers, he will not sell his mines but will proceed to work them.

London, May 28.—Chief Khama has lost 100,000 cattle through the rinderpest and the police are unable to arrest the spread of the disease. The feeling in Pretoria is against the Government and the opposition is so intense that the police have placed a guard at the residence of Dr Leyds. President Kruger has suspended Judge DeKort on suspicion of his having been bribed by Mr Phillips.

MILITARY OFFICER FIRED AT.

Brisbane, May 24.—During a sham-fight at the Lytton encampment on Friday afternoon a sensational incident occurred in which Captain Harvey, of the 2nd Regiment, had a narrow escape from being shot. It is apparent that some one in the rear fired a ball cartridge at Captain Harvey as he was leading the company, the ball striking his sword-scabbard about 12 in. above the heel-plate. A searching enquiry is to be made.

BUSTS OF LORDS ROBERTS AND LANSDOWNE.

Calcutta, June 11.—Two very interesting mementoes of Lord Roberts and Lord Lansdowne are to be seen just now at the Bengal Chamber of Commerce. They are reproductions in bronze of sculptures from the studio of Mr Harry Bates, whose model of the equestrian statue of Lord Roberts, intended eventually for Calcutta, is now in the quadrangle of the Royal Academy. The face of the bust in the Chamber is a replica of that of the statue only without the helmet.

MAJOR GRANT, V. C.

Allahabad, June 3.—The Secretary of State has sanctioned the proposal of the Government of India that Major C. J. W. Grant, V. C., I. S. C., should be allowed to reckon as service for pension the two years additional service which has already been allowed to reckon for promotion. It will be remembered that Major Grant was specially promoted to the rank of Captain two years before his completion of the qualifying period to the end that he might be given the benefit of the rank of Major and the Victoria Cross for his gallant conduct at Thobal, in Manipur, in 1891.

THE CYCLONE IN MISSOURI.

London, May 2?.—Four hundred corpses have been recovered. The damage is estimated at from 10,000,000 to 30,000,000 dollars. The district for four miles by a half is devastated. The streets are choked with debris. The forts, churches and hospitals have been razed to the ground. A train was crossing the bridge at the time of the force of the gale. By going at full speed the engineer saved the train. Twelve trains were overturned in the suburbs. St. Louis resembles a shelled town, the devastation being awful. The lightning fired many buildings. The electric light failed, and the city was in darkness and the panic was awful. Many towns in Missouri, Indiana, and Illinois were destroyed.

TINNED HORSE.

London, May 28.—The complaint has been made in the Belgian Parliament that 6,000 horses were imported last year from England and used in the tinned meat factories. The branding of imported horses is to be insisted upon.

SANITARY PRECAUTIONS AT RAWALPINDI.

Lahore, June 6.—The preventive measures adopted at Rawalpindi immediately on the outbreak of cholera have been eminently satisfactory, and the disease has been almost entirely stamped out. The new system was carried out thoroughly, suspected wells being disinfected.

PROPOSED SHAM FIGHT.

The feasibility of concentrating opposing forces of the strength of about a couple of Divisions each at Lahore and Rawalpindi with a view to a battle being fought somewhere in the vicinity of Wazirabad is under contemplation. November is the month thought of, so as to allow of the cavalry being afterwards exercised at Muriki and the artillery at Ferozepore, the gunners having abandoned the former as a practice ground on account of its extreme flatness.

THE DEATH OF LIEUTENANT HAWORTH.—A POLO ACCIDENT.

Poona, June 6.—Lieutenant Haworth, 5th Lancers, Hyderabad Contingent, who met with an accident at polo, yesterday evening, did not recover consciousness, having died, early this morning, at the hospital. A great gloom has been cast over the station, as this is just the commencement of the Poona season.

June 7.—The remains of the late Lieut. Haworth were interred at St. Sepulchere's cemetery, yesterday evening, with full military honours. The sight was a very imposing one. Major-General Duncan, Commanding the Bombay Forces, and General John Gatacre, Commanding the District, were present, with their respective staff, at the cemetery; also a large number of officers of the station followed. The funeral left the hospital about 5-30, headed by Bands of of the Royal Irish Rifles and the Durhams; the firing party from the Durhams preceding the gun carriage, on which the coffin was borne, covered with the Union Jack, bearing deceased's helmet and sword, and several wreaths. The Rev. Nelson read the burial service. Great sympathy was felt for his widowed mother. His brother, who was at Neemuch, was telegraphed for, but could not arrive in time for the funeral.

THE AUSTRALIANS' FIRST REVERSE—A SEVERE DEFEAT.

London, June 13. — The Marylebone Cricket Club has beaten Australia by an innings and 18 runs.

THE NEW PHOTOGRAPHY.

Simla, June 9.—It will be remembered that Lieutenant Campbell, of the 3rd Punjab Cavalry, was invalided home last year from a bullet wound received in the leg in the Tochi Valley. News has been received from England that his leg was photographed by means of Röntgen rays with the most successful result, the new photography showing plainly the pieces of the bullet, and enabling the operation to be a complete success.

SHOCKING ACCIDENT AT A CORPUS CHRISTI FESTIVAL.

Bangalore, June 8.—A very sad accident occurred yesterday at the celebration of the Corpus Christi Festival, which brought it to an abrupt termination, and has cast great gloom amongst the Roman Catholic community. The construction of altars commenced on Friday last and was finished only yesterday, when the decorations commenced. One altar, which was thirty feet high from the ground and connected with an imposing flight of eighteen steps, came to grief. The centre beam on which the platform was erected suddenly gave way and the structure came down with a terrible crash, those on the platform, who were the decorators, coming down with it. Frantic cries and shouts by the injured for help arose, and Surgeons Watts, Sausman, Trutweia, and Lillywhite were soon on the spot. Immediate aid was rendered by all present and the injured removed from the débris. At the time of the accident twenty people were on the platform, and among those injured are Sub-Engineer E. Pereira, the Engineering Contractor J. Burke, Miss Cora Pereira, Miss Mary Bride, Corporal Molloy, 19th Hussars, Privates Elley and Hands of the Dorsets, and Driver King, besides seven native coolies. Among the Europeans the most severely injured are the Misses Pereira and Bride, Mr Burke, and Corporal Molloy. The latest reports state that they were all progressing favourably.

NEWS BY THE AUSTRALIAN MAIL.

THE AUSTRALIAN ELEVEN.

London, June 2.—The match arranged to take place at Birmingham on 18th June between the Australians and the Gentlemen of England has been altered to a match against the Midland Counties Eleven.

London, June 4.—Mr Harry Musgrove, the manager of the team, is negotiating with a French syndicate with the object of arranging for a match to be played in Paris at the end of the tour in England. He is also in communication with the New Zealand Cricket Council respecting the arrangement of a few matches on the homeward trip. When these arrangements are sufficiently advanced and the dates fixed, Mr Musgrove will seek the consent of the Australian Cricket Council thereto.

Mr E. Jones, the South Australian fast bowler, has been offered high terms to remain in England and qualify to play for the Sussex County Club, and it is probable that he will accept the offer.

London, June 2.—The match between the Australians and Oxford University was resumed at Oxford to-day. The attendance was very large. The weather was splendid and the wicket good. Eady and Graham, the not out men, continued batting, and at the adjournment for luncheon they had increased the score to 55. Graham played steady cricket, being an hour at the wickets. After scoring 38 he was bowled by Cunliffe, 59 runs having been added to the score at the fall of the third wicket. Giffen joined Eady, who was shortly afterwards bowled by Cunliffe for 30. Hill, who succeeded, scored 10 when he was caught by Raikes off his own bowling. Five wickets were down for 132. Giffen and Gregory then got together, and gave a fine display of batting. The South Australian, after compiling 76, was bowled by Bardswell, his score including six fourers. Gregory was at the wickets for an hour and a quarter, during which time he never gave a chance. His score of 68 included six fourers. Trumble played a vigorous not out innings for 35. He gave an easy chance at one time during his innings. The innings closed for a total of 308, or 71 ahead of the Oxford total. Cunliffe secured the best average in the bowling, being credited with four wickets for 98. Hartley obtained three wickets at a cost of 119. Bardswell captured two for 16, and Raikes one for 21. The home team commenced their second innings, and when the stumps were drawn for the day two wickets had fallen for 60 runs. Foster, who played a good innings on the first day of the match, was again successful with the bat. He played in brilliant style, and scored 40 runs out of a total of 47 in half an hour, when he was bowled by Trumble. Smith was stumped by Johns after scoring 7.

London, June 3.—The match between Oxford University and the Australian team was concluded at Oxford to-day, and resulted in a victory for Australia by seven wickets. The result was in a large measure due to the splendid bowling of Trumble, which was almost unplayable. The wicket was rather bumpy. The second innings of Oxford was continued by Warner and Mordaunt, the not out men, going to the wickets. They did not, however, remain long, both being taken by Johns at the wicket. Raikes and Leveson-Gower were both caught off Trumble, the former by Graham and the latter by Hill, for 2 each, while Bardswell failed to score. At 2.50 p.m. the Oxford total was 63 for seven wickets. Bartley and Waddy infused a good deal of life into the game; while they were together they added 88 to the score. Waddy put up 23 before he was caught by Graham off Giffen, and Hartley, after scoring 31, was taken by Iredale off Trumble. Lewis only added a couple to the total, and Cunliffe carried out his bat without scoring, the innings closing for 129. Trumble took six wickets at a cost of only 17 runs. With 59 runs to get to win the match the Australians commenced their second innings by Darling and Graham going in to the bowling of Cunliffe and Hartley. Darling was the first to retire, being bowled by Hartley for 6, the first wicket being down for 15. Trott, who joined Graham, was disposed of by Hartley after adding a couple, the score standing at 17. Graham and Iredale carried the score to 57, when the former was caught by Lewis off Cunliffe for 28. Eady then went in, and made the winning hit, the match ending in favour of Australia by seven wickets.

London, June 4.—The match between the Australian Eleven and the Gloucestershire Eleven was commenced at Bristol to-day. The weather was showery, and play had to be stopped at intervals. The Gloucestershire captain won the toss and elected to bat, Trumble and Eady opening the bowling for the Australians. The play was of the slowest description at the start, but when Dr W. G. Grace and Sewell got together a great improvement was noticeable and 47 runs were obtained in 35 minutes. When the score had reached 47 the bowling was changed, Eady being replaced by Giffen. After the third wicket fell, the home team offered only a feeble resistance to the bowling, and the last seven wickets were disposed of for 40 runs, the innings closing for 110. Dr W. G. Grace contributed 27 to the total, Sewell 42, and March 11. The bowling honours were divided between Giffen and Trumble, the latter bowling splendidly throughout the innings. Both were in fine form, and were very deadly to the Gloucestershire batsmen. Trumble took five wickets for 46; Giffen, four for 42; Eady, one for 20. The Australians then commenced their first innings, Donnan and Darling being the first to bat. Both men scored freely, obtaining 72 runs in 70 minutes, and both gave chances which were missed. Darling was the first to go, being caught by Townsend of E. M. Grace for 35. Giffen took Darling's place at the wickets, and when the score had reached 80 the stumps were drawn for the day. Donnan's contribution to the score was 25 not out. The bowling of the home team was erratic and the fielding faulty.

London, June 5.—The match was resumed to-day. The attendance was moderate, and the weather fine, but the wicket was heavy, owing to recent rain. Donnan and Giffen continued the Australian's first innings. At 35 minutes past 1, two wickets were down for 125 runs, Giffen being clean bowled for 25. At 3 o'clock the Australians, who had completely collared the Gloucestershire bowling, had lost three wickets for 209 runs, Donnan being not out 76, and Gregory not out 48.

THE DERBY.

London, June 3.—The House of Commons has, by a majority of 141, negatived a proposal to adjourn over the Derby Day (to-day).

The race for the Derby Stakes proved a most exciting race. The Prince of Wales's horse *Persimmon* won by a neck only, and the distance at finishing between the second and third horses was only four-fifths of a length. The rider of the winner was Watts. It is stated that Loates, the rider of *St. Frusquin*, who came second in the race, broke his stirrup leather in the final struggle when nearing the winning post. When the Prince of Wales appeared at the front at the conclusion of the race, he was greeted with a hurricane of cheers from the vast assemblage, and the cheering was vociferously kept up for a quarter of an hour.

June 5.—All the principal royal personages in Europe have sent messages to the Prince of Wales felicitating him upon the victory of *Persimmon* in the race for the Derby.

THE LIGHTWEIGHT CHAMPIONSHIP.

June 3.—At the rooms of the National Sporting Club this evening, Lavigne, the American pugilist, defeated Burge in a match for the lightweight championship. Burge was knocked out in the seventeenth round.

COLLIERY EXPLOSION IN FRANCE.

June 4.—A disastrous explosion has taken place in a colliery, at Rochebelle, in the south of France. Twenty-five miners were killed.

THE PACIFIC CABLE CONFERENCE.

June 3.—Mr George H. Murray, C.B., one of the principal officials of the Treasury, will represent the Government at the Pacific cable conference.

June 4.—The Pacific cable conference will assemble on Friday, but merely to decide what witnesses shall be called to give evidence.

China has authorised the French authorities to construct a line of railway to Langchau on the frontier of Tonkin, one of the places opened up to French commerce under the recent treaty between France and China.

DUELLING IN SPAIN.—ARREST OF TWO GENERALS.

General Martinez Campos, formerly the Spanish Commander in Cuba, and General Borrow have been arrested in Spain for having been parties to a duel arising out of a dispute in Cuba.

THE TRANSVAAL.

June 2.—Special prayers have been offered in the Transvaal churches for the recovery of Madame Kruger, wife of the President, who is seriously ill. There is a movement at Johannesburg in favour of endowing the hospital as a mark of gratitude for President Kruger's act of clemency towards the Reform Committee prisoners.

June 4.—General Joubert, the Vice-president of the Transvaal, and Dr Leyds, the Secretary of State, are opposing the policy of President Kruger, who is desirous of carrying out reforms in the Transvaal.

President Kruger, of the Transvaal Republic, is reported to have placed an order for 10,000 Martini-Henry rifles.

June 5.—It is reported that the Transvaal Government and the Netherlands Railway Company are making great efforts to secure the control of the railway lines in the Orange Free State, which form part of the railway system from Cape Colony to the Transvaal Republic. The Transvaal Government are also reported to be in favour of exploiting the territory between their own frontier and Delagoa Bay. The object of these schemes is to harass the British policy in South Africa.

PEACE ASSURED FOR A LONG TIME.

London, June 4.—Speaking in the German Reichstag last night General Bronsart von Schellendorff, Minister for War in the Prussian Cabinet, expressed his firm belief that the peace of Europe was assured for a long time to come.

CRICKET IN ENGLAND.

London, June 1.—In a match between the counties of Sussex and Somersetshire, Mr W. L. Murdoch, captain of the Sussex Eleven, scored 144 in the first innings.

APPROACHING RETIREMENT OF LORD DUFFERIN.

June 3.—In the course of a farewell speech before the British Chamber of Commerce in Paris, the Marquis of Dufferin and Ava, the British Ambassador, said that diplomacy offered the best means for devising a restraining influence upon the armaments of Europe.

TRADE RELATIONS OF THE EMPIRE.

June 2.—Sir Charles Tupper, the Premier of Canada, says that there is a good prospect of the colonies maturing a scheme at an early date which will justify Lord Salisbury in denouncing the German and Belgian commercial treaties.

MR GLADSTONE AND THE POPE.

June 1.—Mr Gladstone has spoken in terms of praise of the paternal attitude of the Pope in inquiring into the validity of the Anglican orders.

THE FRENCH ROYALISTS.

London, June 3.—A supporter of the French Royalist cause has been elected to the Senate for the vacancy in the representation of Cholet. The Duc d'Orleans, the head of the Royalist house of France, did not offer himself as a candidate.

DEFENCE OF THE UNITED STATES.

London, June 3.—The Defence Committee of the United States Senate has presented its report, in which it states that New York and 26 other ports of the Union are at the mercy of a foreign fleet.

MATHEMATICAL HONOURS FOR WOMEN.

London, June 2.—Thirteen women have gained honours in the mathematical tripos at the annual examinations at the University of Cambridge.

OBITUARY.

June 4.—The death is announced of Professor Sir George Johnson, M.D., F.R.S., Physician Extraordinary to the Queen, aged 78.

[Professor Sir George Johnson was president of the Royal Medical and Chirurgical Society from 1884 to 1886, and was also honorary consulting physician to the Royal College of Music, an office to which he was appointed by the Prince of Wales. In 1889 he was appointed Physician Extraordinary to the Queen, and in 1892 her Majesty conferred on him the honour of knighthood.]

The death is announced of Signor Ernesto Rossi, an Italian tragedian, who was styled the 'Italian Talma.' Signor Rossi was in his 67th year.

CORONATION CEREMONIES.—THE DINNER AT BRITISH EMBASSY.

June 5.—The Czar and Czarina yesterday were entertained at a grand dinner given by Sir Nicholas O'Conor and Lady O'Conor. It is reported that the British is the only embassy which has been thus honoured in connection with the coronation ceremonies at Moscow.

AUSTRALIAN MAILS.—QUESTION OF SPEED.

London, June 5.—In the House of Commons last evening, Mr Robert W. Hanbury, Financial Secretary to the Treasury, replying to a question relating to the Australian mail contracts, stated that there was no pressing demand that the Australian mails should be carried at the rate of 17 knots, which would involve a large increase in the subsidies.

REBELLION IN NICARAGUA.—WARSHIPS CLEAR FOR ACTION.

London, June 2.—In consequence of the excesses of the rebels at Corinto, a seaport on the Pacific coast of Nicaragua, the British and United States men-of-war lying off the port were compelled to land a force of marines to defend the British bank. General Metuta, the commander, threatened to eject the marines, whereupon the men-of-war immediately cleared for action. General Metuta, however, tendered an apology.

THE SPANISH NAVY.

June 5.—The Municipal Council of the city of Barcelona, the second largest and the most important manufacturing city in Spain, have decided to present a warship to the Spanish Government, as their contribution towards the strengthening of the Spanish navy.

YACHT RACE.

The yacht Meteor, owned by the Emperor William of Germany, sailed in the London club matches yesterday, and easily defeated the yacht Britannia, belonging to H.R.H. the Prince of Wales.

THE WAR IN CUBA.

June 4.—The steamer *Three Friends* which left New York on May 20 with 2,000 rounds of ammunition, 500 rifles, and half a ton of dynamite, has landed her cargo at Cuba.

HONGKONG SHARE MARKET.

The following is Erich Georg's Weekly Share Report for the past week :—

Banks.—Hongkong and Shanghais remain dull with no business. Shares are obtainable at 189 or probably 183 per cent. prem. cash, and at equivalent rates on time. Nationals have remained on offer at $29 without leading to business.

Marine Insurances.—China Traders have ruled weak and small sales have been effected at $79 and $78½. Unions have further advanced with small sales to $237½. Cantons are enquired for and have changed hands in small lots at $200. Straits have ruled weak at $28½. North Chinas are offering from the North at Tls. 200, and Yangtszes are wanted at $145, after futile efforts to obtain shares at $137½ and $140, to which rates they nominally fell in the early part of the week.

Fire Insurances.—Hongkongs have remained at $337½ with small sales. China Fires have found buyers in fair quantities at $97, closing with sellers.

Shipping.—Hongkong, Canton, and Macaos have changed hands at $34, Douglases at $62½ and $63, and $64, closing in with sellers at the latter rate. Indo-Chinas have been negotiated to a considerable extent at $66 and $65, closing quiet. China and Manilas continue to be enquired for, and have changed hands at $74; more shares could be placed at the rate, notwithstanding the fact that 15 days' quarantine has been imposed on the Company's steamers at Manila.

Refineries.—China Sugars are still out of favour, and, although sellers (chiefly from the north) are willing to accept $112, no transfers have been made. Luzons have changed hands in fairly large quantities at $68, $67, and $66, Shanghai being the chief seller at the lower rates. At time of writing market is steadier with no sellers under, but with no buyers at, $67.

Mining.—Punjoms have ruled weak with sales at $15½, $15, $14½, $14, and $13½. The result of the May cyanide clean up gave 293 oz., (assay value of £1 18s. 0d. per oz.) from 860 tons of tailings. This result is not considered satisfactory by the generality of shareholders. Raubs have been done at $5.50 in small lots, Jelebus at $3, Olivers at $3 and $3.75, and Balmorals at $2.75.

Docks Wharves, and Godowns.—Hongkong and Whampoa Docks have ruled more or less neglected but shares are now in request at $152. It is very unlikely, however, that any will be obtainable under the rate quoted. Kowloon Wharves, after further small sales at $55, quickly fell to $51, after intermediate sales at $53 and $52. At time of writing shares can be placed at the last rate, but not many are obtainable. The small enquiry that exists for Wanchais is still unsatisfied.

Lands, Hotels, and Buildings.—Lands continue in demand at $72 and several sales have been effected at that rate. Hotels, owing chiefly to the failure of negotiations for the purchase of or an amalgamation with Mount Austin Hotel, continue quiet at $26. West Points have been enquired for in a small way at $18, but I hear of no sales. Humphreys continue neglected at $9 with sellers.

Miscellaneous.—With the exception of small sales of Electrics at $7.10 ex dividend, Watsons at $12.50 and $12.25, and of Ewo Cotton mills at $25, I have nothing to report under this heading.

THE Blood is the source from which our systems are built up, and from which we derive our mental as well as our physical capabilities. If the blood is diseased the body is diseased. Sufferers from Scrofula, Scurvy, Eczema, Bad Legs, Skin and Blood Diseases, Pimples, and Sores of any kind are solicited to give Clarke's world-famed Blood Mixture a trial to test its value. Thousands of wonderful cures have been effected by it. Sold everywhere at 2s. 9d. per bottle. Beware of worthless imitations and substitutes.

Rowland's Odonto

An antiseptic, preservative, and aromatic dentifrice, which whitens the teeth, prevents and arrests decay, and sweetens the breath. It contains no mineral acids, no gritty matter or injurious astringents, keeps the mouth, gums, and teeth free from the unhealthy action of germs in organic matter between the teeth. Is the most wholesome tooth powder for ladies and children, and being most beautifully perfumed it is a perfect toilet luxury for ladies who value the appearance of their own and their children's teeth. 2s. 9d. per box.

ROWLAND'S MACASSAR OIL

Has been known for 100 years as the best preserver and beautifier of the hair, it prevents it falling off or turning grey, strengthens weak hair, and eradicates scurf and dandruff; it is unsurpassed as a brilliantine for the beard and moustaches, to which it imparts a soft and silky appearance. It is also sold in a golden colour for fair-haired children; it is most exquisitely perfumed.

ROWLAND'S KALYDOR

A soothing and emollient milk for the face, and is most cooling to the skin in hot climates; it removes freckles, tan, sunburn roughness and redness of the skin, pimples, cutaneous eruptions, &c., and produces soft fair skin, and a lovely delicate complexion; it is warranted free from any mineral poisons and is absolutely harmless. Bottles, 2s. 3d. and 4s. 6d.; sold by Druggists and Stores.
IMPORTANT CAUTION.—Be sure to ask for Rowland's Macassar Oil, Kalydor and Odonto, of 20, Hatton Garden, London, and see that each article bears their signature in red ink; all others are worthless and poisonous imitations; 100 years prove that Rowlands' are the best and only genuine.

HERE, THERE AND EVERYWHERE

AN HONEST DOUBTER.

The chief difficulty about believing the Bible which was present to the mind of a man whose story was given to the world at a meeting of the Christian Evidence Society, was a little problem concerning the ark. 'I do not like,' he said, 'to refuse to believe in its size, or its build, or in the number of animals it contained. This is all quite conceivable and doubtless correct. But when I am asked to believe that the children of Israel carried it about for forty years in the wilderness—well, my faith breaks down. By the aid of pictures of the two different articles his faith was happily restored.

PORTRAIT PAINTING EXTRAORDINARY.

Rontgen rays and the new photography may take a back seat. They are already outdistanced far by Miss Bangs, of America, and her system of portrait painting by mediumship. This wonderful invention is thus described in *Light*, the organ of Spiritualism in this country:—'A gentleman resolved to test the powers of Miss Bangs, and had a box made with double hinges and two special Yale locks. Into this he fitted the canvas—twenty-two inches by twenty-seven inches—on the back of which he pasted a new United States one-dollar bill, and other private marks for identification. He double-locked the box in the presence of six witnesses, then added eight seals across the opening. He himself carried the box to the house of Miss Bangs, where he had six sittings of one hour's duration each, the sittings occurring daily. During these occasions he held the handles of the case in his hands, so that it did not leave his possession for one moment. At the conclusion of each sitting he carried the box to his office and locked it in his private vault. At the conclusion of the sixth sitting he opened the box and found on the canvas a beautiful portrait of a deceased friend, which he recognised.' This is certainly a curious performance. It may be that the picture was dear at the price of a dollar, but if Titian or Sir Joshua Reynolds can be summoned to paint in an iron-bound deal box the Bangs system may have some value.

JAPANESE FINANCES.

A correspondent, intimately acquainted with the East, writes to the *Standard* to say that the Japanese Government will probably have to take home a large part of the indemnity money in the shape of silver or silver drafts, as the paper currency—swollen from 40,000,000 yen to 255,000,000 yen by the war with China—is without sufficient metallic basis. The country is sound and progressive, but going ahead too fast for its means, and an Internal Loan of 10,000,000 yen in Five per Cent. Bonds, offered lately in Japan, was taken up to the extent of 3,000,000 yen only. About 20,000,000*l.* is the proportion of the total indemnity of 38,000,000*l.* which may have to be sent home to Tokio in cash.

A SUMMER MOBILISATION.

It is now asserted with an appearance of authority that the Admiralty have decided upon a mobilisation during the present summer. As long as the whole of the Particular Service Squadron was in commission there was, it was said, an insufficiency of men, but it has now been decided to mobilise a certain number of ships, though the date is to be kept secret. The statement may or may not be correct, but it is quite certain that if any mobilisation is to take place the Admiralty is well advised in postponing the notification of it until the last moment, and so making it more real. Lord Charles Beresford was emphatic last week on our deficiency of men, and no official assertions can show that we shall have sufficient crews for our new ships as they are completed. This is the commentary on the assertion that our mobilisation for this year is dependent upon the supply of a certain number of men from the Particular Service Squadron.

A FLYING MACHINE.

Professor Langley, secretary of the Smithsonian Institute at Washington, is said to have at last invented a rationally constructed flying machine. He calls it an 'aërodrome.' Professor Bell, of telephone fame, lately watched some remarkable experiments with the invention, which convinced him that the practicability of mechanical flight had been demonstrated. Professor Langley says that no gas is used in working the 'aërodrome.' It is built of steel, and is about a thousand times heavier than the air which supports it, much as thin ice supports the swift skater. The power is derived from a steam-engine and propellers. Two upward ascents of about half a mile were made at a speed of twenty miles an hour. The machine in motion suggests a huge bird, soaring in large curves. When the steam gave out the aërodome sank gracefully and was picked up undamaged. No passengers were carried in the trial trips.

A GERMAN OPINION ON THE TRANSVAAL QUESTION.

Herr Isidor Adler, a retired South African merchant, has contributed to the *Börsenhalle*, of Hamburg, a letter in which he deplores the 'strange and deplorable antagonism shown by the German Press during the past four months to British policy in South Africa.' His experience is that German commercial interests in British possessions require no better protection than that already accorded under the British flag to every trader, irrespective of nationality, creed, or colour. English blood, enterprise, and capital have built up the South African colonies and opened the resources of that vast territory, in which German traders, side by side with Englishmen, have reaped the benefit. Herr Adler says the origin of the recent troubles in the Transvaal rests entirely with its own Government. He reviews the past history of the Transvaal to establish this assertion, and observes that the Jameson raid was as foolish as it was criminal; but it is well known that the Boers were informed of what was contemplated, and could have stopped the expedition by apprising the British Government. He concludes by asserting that the commercial interests of Germany and Great Britain in the Transvaal are identical in every respect, and that there is no cause, as regards the Transvaal question, for misunderstanding between the two nations.

'IN HAPPY MOMENTS.'

The actors in the Rhodesian military drama fight well and with real, not stage, heroism, but they are sadly lacking in the matter of dramatic instinct. It seems, from a telegram in the *Daily Mail*, that there was no Church service on the Sunday in the laager at Bulawayo after the fight, but the Bulawayo band played a selection of operatic pieces, and a Mr Neale sang 'In Happy Moments.' Now, if it had been a gathering of Boers after a victory on a Sunday, President Kruger would have arranged differently and very much more effectively. There would have been a solemn 'Te Deum,' and if only Mr Leonard Courtney had been at hand to assist we have not the slightest doubt that the 68th Psalm would have a prominent place in the order of service.

BURNS ON THE STAGE.

In a play which is to see the light at Edinburgh next Monday the rather risky experiment is to be tried of making the poet Burns the central character, and his brilliant career and tragic life the theme of the piece. Highland Mary and Lady Esther Carlton, rivals for the poet's affections, supply the love element, and Tam o' Shanter, Souter Johnnie, and others, the amusing features; while there are smuggling incidents to lend variety. The scene is laid in Ayr, Edinburgh, and Dumfries. The play, which was written some time ago, has, the Edinburgh *Evening News* says, been revised and largely rewritten by a Scottish journalist.

THE GREAT ROBINSON FAMILY.

It is fashionable to take liberties with the name of Robinson, but few, if any, names have of late decades been more prominent in the public service. In addition to Sir Hercules of South Africa, at least five other Robinsons, belonging to the same generation, served her Majesty well enough to receive the honour of knighthood. They are (or were) Sir Brayan Robinson, K.B., Sir Henry Robinson, K.B., Sir R. S. Robinson, K.C.B., Sir W. C. F. Robinson, K.C.M.G., and Sir W. R. Robinson, K.C.S.I. Then, another Robinson of Sir Hercules's generation won the Victoria Cross, and still another is famous as the Marquis of Ripon. There are two Robinson families of standing who use the name of Hercules. They do not appear to be related, but they are both Irish, and in Ireland Hercules seems to have 'caught on' like the equally classical Terence. [Where does our Sir William come in?]

HAPPIEST OF ALL.

There is no time in the twenty-four hours when one ought to feel so thoroughly satisfied and content as immediately after a good, hearty meal. And all healthy persons do feel so. The body's demands have been met, and we are easy and comfortable, as though we had paid off an old dun and had money left. We are accessible, humane, and good natured. Then, if ever, we will grant a request without grumbling. "True benevolence," says a crusty old friend of mine, "is located in a capable stomach recently filled."

Yes, but what of the incapable stomachs, of which there are so many?—stomachs that disappoint and plague their owners, till the act of feeding, so delightful to others, becomes an act to avoid the necessity of which they are almost willing to die? Ah, that is quite another thing. These poor souls are they who say, as Miss Wallace says in this letter of hers, "I was no longer to be counted among those who have pleasure in eating. Far from it. As for me I was afraid to eat. I felt the *need* of food, of course—the weakness and sinking that accompanied abstinence—but what was I to do? The moment I ate, my distress and pain commenced. No matter how light the repast was, nor how careful I was not to hurry in taking it, the result was the same. The distress and gnawing pains followed, with discomfort in the chest, and a sense of choking, as if some lots of food had lodged there and were irritating me.

"So objectionable and repugnant to me was the act of eating that for days together I didn't touch a morsel of solid food, subsisting entirely on milk and soda water. Owing to this enforced lack of nourishment I got extremely weak, and about as thin as I could be. I must not forget to say that this happened to me, or rather it *began* to happen in July, 1886, when I was living at Wellington, in Shropshire. It came on, as you may say, gradually and not with any sudden or acute symptoms. I found myself low, languid, and tired. Then came the failure of my appetite and the other thing I have named.

"I took the usual medicines for indigestion, but they had no good effect. After six months' experience of this kind of misery I read in a book about Mother Seigel's Syrup as a remedy for this disease, and got a bottle from Mr Bates, the chemist, in Wellington. Having used it a few days I felt great relief, and when I had consumed two bottles I was entirely well. Since then I have heartily commended Mother Seigel's Syrup to many friends, who have invariably been cured, as I was. You have my permission to publish my letter, if you desire to do so. (Signed) Minnie Wallace, Nurse, The Union Workhouse, Oldham, February 22nd 1895.'

In a communication dated January 8th, 1895, Mrs. Henrietta McCallam, of 40, Downsfield Road, Walthamstow, near London, states that her daughter Emma fell ill in the spring of 1885 with the same symptoms described by Miss Wallace. She craved food, yet, when it was placed before her, she turned from it almost with loathing. "As time went on," so runs the mother's letter, "my daughter became so weak she could hardly walk. Neither home medicines nor those of the doctors did any good. Her sufferings continued for over eight years.

"In June, 1894, she began taking Mother Seigel's Syrup, of which we had just read in a little book that was left at the house. In a week she was better, and in less than two months she was enjoying better health than ever before. She has since ailed nothing, and can eat any kind of food. (Signed) (Mrs.) Henritta McCallam."

"Happy," sings Homer, "were they who fell under the high walls of Troy." Happier are they who have never fallen under the crushing weight of indigestion or dyspepsia. Happiest, perhaps, of all are they who have been lifted up by Mother Seigel's remedy and placed where once again they can eat, drink, and be merry. And if all these could be gathered together they would make a greater host than the Greek poet ever dreamed of.

"Disfigured For Life"

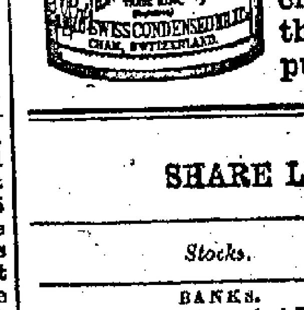

Is the despairing cry of thousands afflicted with Unsightly skin diseases.
Do you realize what this disfiguration means to sensitive souls?
It means isolation, seclusion.
It is a bar to social and business success.
Do you wonder that despair seizes upon these sufferers when
Doctors fail,
Standard remedies fail,
And nostrums prove worse than useless?
Skin diseases are most obstinate to cure or even relieve.
It is easy to claim to cure them, but quite another thing to do so.
CUTICURA REMEDIES
Have earned the right to be called Skin Specifics—
Because for years they have met with most remarkable success.
There are cases that they cannot cure, but they are few indeed.
It is no long-drawn-out, expensive experiment.
25c. invested in a tablet of
CUTICURA SOAP
Will prove most convincing.
In short,
CUTICURA WORKS WONDERS
And its cures are simply marvellous.

SPEEDY CURE TREATMENT.—Warm baths with CUTICURA SOAP, gentle applications of CUTICURA (ointment), followed by mild doses of CUTICURA RESOLVENT (the new blood purifier).

Dr. J. Collis Browne's

CHLORODYNE

COUGHS, COLDS, ASTHMA, BRONCHITIS.

IS THE GREAT SPECIFIC FOR DIARRHŒA, DYSENTERY, CHOLERA

DR. J. COLLIS BROWNE'S CHLORODYNE.—Dr. J. COLLIS BROWNE (late Army Medical Staff) DISCOVERED a REMEDY, to denote which he coined the word CHLORODYNE. Dr. Browne is the SOLE INVENTOR, and as the composition of Chlorodyne cannot possibly be discovered by Analysis (organic substances defying elimination), and since the formula has never been published, it is evident that any statement to the effect that a compound is identical with Dr. Browne's Chlorodyne *must be false*.

This caution is necessary, as many persons deceive purchasers by false representations.

GENERAL BOARD of HEALTH, London, REPORT that it ACTS as a CHARM, one dose generally being sufficient.

Dr. GIBBON, Army Medical Staff, Calcutta, states: "TWO DOSES COMPLETELY CURED ME OF DIARRHŒA."

DR. J. COLLIS BROWNE'S CHLORODYNE Is a liquid medicine which assuages PAIN of EVERY KIND, affords a calm, refreshing sleep, WITHOUT HEADACHE, and invigorates the nervous system when exhausted.

DR. J. COLLIS BROWNE'S CHLORODYNE Rapidly cuts short all attacks of

EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR of CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—See *The Times*, July 13, 1864.

IMPORTANT CAUTION.—The IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS. Be careful to observe Trade Mark. Of all Chemists. 1s. 1½d., 2s. 9d. & 4s. 6d. SOLE MANUFACTURER—
